WELCOME

Welcome to AP Computer Science Principles! As part of this course you will work on two through-course performance tasks, Create and Explore. You will be uploading and submitting five final performance task artifacts via the AP Digital Portfolio, three artifacts for Create and two artifacts for Explore. These will be graded and form part of your final AP grade. This guide explains how to use the AP Digital Portfolio system.

- **Some key dates:**
 - November: You can start submitting performance task artifacts.
 - December to April 30: You must indicate whether you intend to take the end-of-course exam.
 - April 30: Deadline for submitting all final (5) performance task artifacts.

DIGITAL PORTFOLIO ACCESS AND CLASS ENROLLMENT

Log in Using Your College Board Username and Password

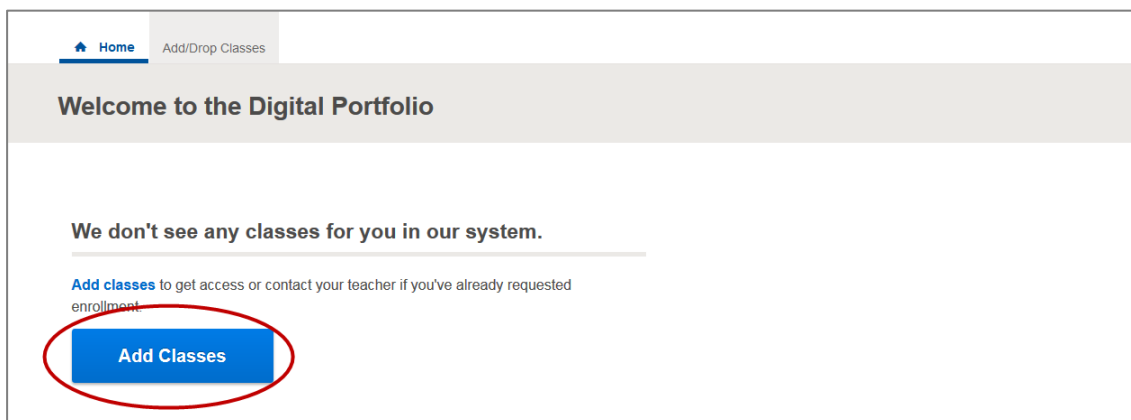

- Go to digitalportfolio.collegeboard.org and log in using your College Board username and password.
 - You may already have an account if you have taken an AP Capstone course or AP with WE Service course in a prior year, viewed AP® scores, or registered for the SAT® online.
 - If you do not remember your account credentials, you can request your username or reset your password.
 - If you don't have an account, create a new account.

A screenshot of the College Board Digital Portfolio login page. The page has a navigation bar at the top with links for SAT, PSAT/NMSQT, AP, College Planning, College Search, Professionals, and More. Below the navigation bar, there is a 'Welcome' section with a sign-in form. The sign-in form includes fields for 'Username' and 'Password', a 'Remember me' checkbox, and a 'Sign in' button. Below the sign-in form are links for 'Forgot Username?' and 'Forgot Password?'. To the right of the sign-in form is a 'Don't Have An Account? Sign-Up.' section with a 'Sign Up' button. Further right is an 'Other Tools' section with a link to 'CollegeBoard.org'.

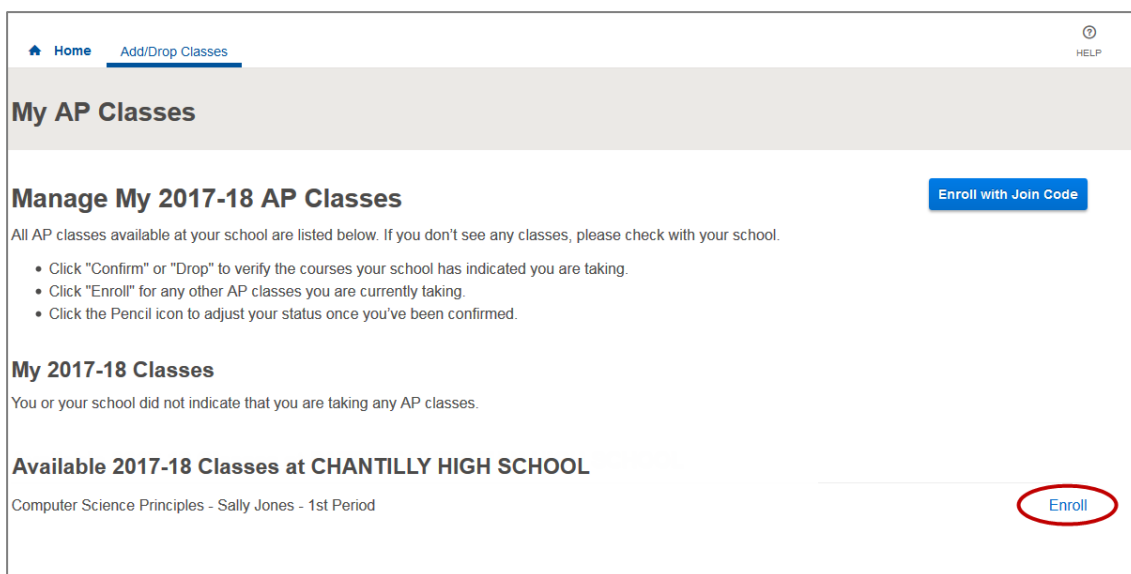

- Once you have signed in to your College Board account, you may be prompted to provide additional information.

Enrolling in an AP Computer Science Principles Class at Your School

- Visit digitalportfolio.collegeboard.org and log in using your College Board student account and password.
- If you are not enrolled in an AP CSP class for the current academic year, you will be prompted to add a class by clicking the 'Add Classes' button.

- You will be redirected to the 'Manage My Classes' page and see a complete list of Digital Portfolio classes being offered at your school. You should request enrollment in the appropriate Computer Science Principles class.

- When you click 'Enroll', the screen will indicate that enrollment has been requested. You will not be able to access the Digital Portfolio content until your teacher has confirmed your enrollment.

Home Add/Drop Classes HELP

My AP Classes

Manage My 2017-18 AP Classes

All AP classes available at your school are listed below. If you don't see any classes, please check with your school.

- Click "Confirm" or "Drop" to verify the courses your school has indicated you are taking.
- Click "Enroll" for any other AP classes you are currently taking.
- Click the Pencil icon to adjust your status once you've been confirmed.

My 2017-18 Classes

Computer Science Principles - Sally Jones - 1st Period

Enrollment Requested

Available 2017-18 Classes at CHANTILLY HIGH SCHOOL

There are no available AP classes at your school.

Enrolling in an AP Computer Science Principles Class at a Different School

- If you are enrolling in CSP at a school other than your primary school, you should enroll with a join code provided by your CSP teacher.
- Visit digitalportfolio.collegeboard.org and log in using your College Board student account and password.
- You will be prompted to add a class by clicking the 'Add Classes' button.

Home Add/Drop Classes

Welcome to the Digital Portfolio

We don't see any classes for you in our system.

[Add classes](#) to get access or contact your teacher if you've already requested enrollment.

Add Classes

- You will be redirected to the Manage My Classes page. From there, click on the 'Enroll with Join Code' button at the top right of the page.

The screenshot shows the 'Manage My 2017-18 AP Classes' page. At the top right, there is a blue button labeled 'Enroll with Join Code' which is circled in red. Below this, there is a list of instructions: 'Click "Confirm" or "Drop" to verify the courses your school has indicated you are taking.', 'Click "Enroll" for any other AP classes you are currently taking.', and 'Click the Pencil icon to adjust your status once you've been confirmed.' Below the instructions, it says 'My 2017-18 Classes' and 'You or your school did not indicate that you are taking any AP classes.' At the bottom, it lists 'Available 2017-18 Classes at CHANTILLY HIGH SCHOOL' with the entry 'Computer Science Principles - Sally Jones - 1st Period' and an 'Enroll' button.

- Enter the Join Code your CSP teacher has provided you and click the 'Submit' button.

The screenshot shows the 'Enroll with Join Code' modal. It has a title bar with a close button. The text inside says: 'If your teacher has provided you with a join code, you may enter it here to request enrollment.' Below this is a text input field labeled 'Enter Join Code' containing the code '3U7AHF'. A red arrow points to this field. At the bottom right of the modal, there is a blue 'Submit' button circled in red, and a grey 'Cancel' button to its left. The background shows the same 'Manage My 2017-18 AP Classes' page as the previous screenshot.

- Confirm that the Join Code is for the correct section and click the 'Submit' button again.

The screenshot shows the 'Enroll with Join Code' modal after clicking 'Submit'. It displays the details of the enrollment request: 'You are requesting enrollment for:', 'School: Chantilly High School', 'Course: Computer Science Principles', 'Class: 1st Period', and 'Teacher: Sally Jones'. At the bottom right, the blue 'Submit' button is circled in red, and the grey 'Cancel' button is to its left. The background shows the same 'Manage My 2017-18 AP Classes' page.

- When you click 'Submit', the screen will indicate that enrollment has been requested. You will not be able to access the Digital Portfolio content until your teacher has confirmed your enrollment.

SUBMITTING YOUR WORK IN THE DIGITAL PORTFOLIO

Access the AP Digital Portfolio

- Once your teacher has confirmed your enrollment request you should be able to access the Digital Portfolio by logging into digitalportfolio.collegeboard.org.

The screenshot shows the AP Computer Science Principles Digital Portfolio interface. At the top, there's a navigation bar with 'Home', 'My Classes', and 'Add/Drop Classes'. Below this, the page title is 'AP Computer Science Principles 1st Period'. On the left, a 'Class Summary' sidebar lists 'Overview', 'Create', and 'Explore'. The main content area is titled 'Overview' and contains a paragraph about the course's purpose. Below this is a section titled 'AP Computer Science Principles Policy on Plagiarism' with two paragraphs. At the bottom, there are sections for 'Create' (with links for Individual Video, Written Responses, and Program Code) and 'Explore' (with links for Computational Artifact and Written Responses).

Navigate Through the AP Digital Portfolio

- The left menu allows you to select from an overall course 'Overview' or drill down into each of the performance tasks for the course you are in.

This screenshot shows the 'Individual Video' page within the AP Computer Science Principles Digital Portfolio. The left sidebar now highlights 'Individual Video' under the 'Create' section, with a red arrow pointing to it. The main content area is titled 'Individual Video' and includes a 'Submission Requirement' section with the heading '1. Video'. The requirement states: 'Submit one video in .mp4, .wmv, .avi, or .mov format that demonstrates the running of at least one significant feature of your program. Your video must not exceed 1 minute in length and must not exceed 30MB in size.' Below this, there is a 'File Upload and Submission' section with an 'Upload New' button.

Prepare your Work for Submission

- As part of the CSP course, you will be uploading and submitting final five performance task components via the Digital Portfolio. You must follow the guidelines for file format and size.
 - Explore
 - Computational Artifact (CA)
 - Supported File Types: .MP3, .MP4, .WMV, .AVI, .MOV, .WAV, .AIF or .PDF
 - No larger than 30MB
 - Video and audio files cannot exceed 1 minute (60 seconds)
 - Written Responses (WR)
 - Supported File Types: .PDF
 - No larger than 30MB
 - A downloadable template will be provided for you to use
 - Create
 - Video (IV)
 - Supported File Types: MP4, .WMV, .AVI, OR .MOV
 - No larger than 30MB
 - Video and audio files cannot exceed 1 minute (60 seconds)
 - Individual Written Responses (IWR)
 - Supported File Types: .PDF
 - No larger than 30MB
 - A downloadable template will be provided for you to use
 - Program Code (PC)
 - Supported File Types: .PDF
 - No larger than 30MB
- ***Do not publicly post or share any portions of your performance tasks.***
- Written Responses need to be in PDF format. If you need help converting a file to PDF, please visit the section of this guide titled ***'Additional Information - Converting Your Documents to PDF'***.
- Computational Artifact and Individual Video can be submitted as videos. For additional considerations on how to create video files for submission, please visit the section of this guide titled ***'Additional Information - Creating Video Files'***.

Use AP CSP Written Response Templates

- Use of the Written Response Template can enhance the facilitation of the scoring process. It is highly recommended that you use the Written Response Template for both performance tasks.
 - Create - Applications from Ideas Performance Tasks: This template was developed to help ensure you provide a response to all the requirements in the Create Performance Task in an organized and properly labeled manner. The Written Response Template for this task should be used for sections 2a, 2b, 2c, and 2d.

- Explore – Impact of Computing Innovations Performance Task: This template was developed to help ensure you provide a response to all the requirements in the Explore Performance Task in an organized and properly labeled manner. The Written Response Template for this task should be used for sections 2a, 2b, 2c, 2d, and 2e.
- To access the Written Response templates, navigate to the Written Responses page for the Performance Task you are working on. Then, scroll down to the ‘Download Template for Written Responses’ section.

Upload and Download Draft Work

- Click on the performance task component for which you’d like to upload a document. Select ‘Upload New’ and indicate the file you wish to upload. When the upload is complete, you will see a comment in the activity feed, and the ‘Download Latest’ options will become available.

The screenshot shows the AP Computer Science Principles 1st Period interface. On the left is a sidebar with a 'Class Summary' header and a 'Create' section containing links for 'Explore', 'Overview', 'Computational Artifact' (which is selected), and 'Written Responses'. The main content area is titled 'Computational Artifact' and includes 'Submission Requirements'. Under '1. Computational Artifact', it states that the artifact must provide an illustration, representation, or explanation of a computing innovation's purpose, function, or effect, and must not simply repeat information from written responses. It specifies that artifacts should be primarily non-textual and can be video, audio, or PDF files. Acceptable multimedia file types listed are .mp3, .mp4, .wmv, .avi, .mov, .wav, .aif, or .pdf. It also notes that PDFs must not exceed 3 pages in length and video or audio files must not exceed 1 minute in length and 30MB in size. At the bottom of the main content area, there is a 'File Upload and Submission' section with a light gray background. This section contains a blue 'Upload New' button, which is pointed to by a large red arrow.

- Once you've uploaded a document, it will be available for you and your teacher to download.
 - Your work will not be sent to the College Board for scoring until you submit it as final.
 - You can download the most recently uploaded document by clicking the 'Download Latest' button, or by clicking the link in the Activity Feed. Prior versions of a submission can be retrieved via the Activity Feed.

The screenshot shows the AP Computer Science Principles 1st Period interface. On the left is a sidebar with 'Class Summary', 'Create', and 'Explore' sections. 'Explore' is active, showing 'Overview', 'Computational Artifact' (selected), and 'Written Responses'. The main content area is titled 'Computational Artifact' and 'Submission Requirements'. It includes a section '1. Computational Artifact' with instructions on what the artifact must provide and acceptable file formats (.mp3, .mp4, .wmv, .avi, .mov, .wav, .aif, .pdf). Below this is a 'File Upload and Submission' section with three buttons: 'Upload New', 'Download Latest' (circled in red), and 'Submit Final'. At the bottom is an 'Activity Feed' showing a post by Robyn Schultz from August 11, 2016, stating 'Uploaded a new version: Computational_Artifact.pdf' (the entire post is circled in red).

Submit Work as Final

- ***You must submit your work as final in order in order for your work to be sent to the College Board.***
- Once your teacher tells to do so, you should submit your written work as final.
- Remove your name and any other personally identifying information from written work prior to submitting final.

- Click on the performance task component that you want to submit as final. Click 'Submit Final' to submit the most recently uploaded file as final.

Overview

Computational Artifact

Written Responses

Computational Artifact

Submission Requirements

1. Computational Artifact

Your computational artifact must provide an illustration, representation, or explanation of the computing innovation's intended purpose, its function or its effect. The computational artifact must not simply repeat the information supplied in the written responses and should be primarily non-textual.

Submit a video, audio, or PDF file. Use computing tools and techniques to create one original computational artifact (a visualization, graphic, video, or audio recording). **Acceptable multimedia file types include .mp3, .mp4, .wmv, .avi, .mov, .wav, .aif, or .pdf format. PDFs must not exceed 3 pages in length. Video or audio files must not exceed 1 minute in length and must not exceed 30MB in size.**

Uploaded a new version: [Computational_Artifact.pdf](#)

- A window will appear asking you to confirm several things before you complete your final submission:
 - *that you have reviewed the file and it is correct (checkboxes will remain inactive until you view your file)*
 - *that you have removed your name personally identifying information from your submission*
 - *that you understand that changes to your submission cannot be made after you complete the final submission process*

Final Submission 

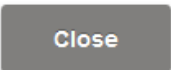

You are about to submit the following as your final submission for Computational Artifact. You must click and open the file below to verify that it is correct.

 [Computational_Artifact.pdf](#)

☒ I have reviewed the uploaded file to ensure it is the correct version.

☒ I have confirmed that my file does not contain my name or any other personally identifying information.

☒ I understand that I will not be able to make any changes to my file once I complete the final submission process.

- Then, you will attest to the originality of your work, that you have read the performance task directions, and that you did not collaborate on any submissions in which collaboration is not allowed.

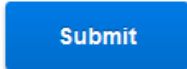

Final Submission 

☒ I hereby affirm that the work I am submitting is my own and that I have read and understand the [AP Computer Science Principles Policy on Plagiarism](#).

☒ I hereby affirm that the work I am submitting is my own and that I have read the [AP Computer Science Principles Assessment Overview and Performance Task Directions for Students](#).

☒ I hereby affirm that I did not collaborate on any of the following:

- Individual written response for the Create Performance Task.
- Individual video for the Create Performance Task.
- Any portion of the Explore Performance Task.

- For Create Program Code, before attesting to the originality of your work, you will then be asked to indicate the programming language you used for your work. Your choice will NOT have an impact on your score.
- After clicking 'Submit' you will receive a confirmation window that your final submission has been received.

Final Submission 

Your final submission has been received.

PREPARING FOR THE END-OF-COURSE EXAM

- If you are taking the AP end-of-course exam, you must:
 - Submit your work as final
 - Indicate your intent to take the AP end-of-course exam
 - Enter your AP Number
- ***If you do not complete all three steps, your work will not be submitted to the College Board for scoring.***

Indicate Your Intent to Take the AP End-of-Course Exam

- Starting in December, you will be prompted to indicate whether or not you intend to take the end-of-course exam. You must provide a response by April 30.
- You can indicate your intent-to-take exam question by navigating to the Overview page.

ADDITIONAL INFORMATION

Converting Your Documents to PDF

- For the Written Responses and Program Code submissions, you must upload a .pdf (or PDF) version of document. PDF stands for “Portable Document Format.”
- Recent versions of applications like: Word, PowerPoint, Pages, and Google Docs, have built-in features that allow you to save or export your file as a PDF. Instructions are provided below.
- If your software does not have a PDF option, visit the Adobe site and learn more about whether [Acrobat from Adobe Systems](#) can convert your document to PDF.
- You are responsible for ensuring that your file is properly formatted and readable. After you have created your PDF, be sure to check it by opening and reviewing your PDF in [Adobe Reader](#), a free application that can be downloaded from the Adobe site. The College Board is not affiliated with Adobe Systems and is not responsible for any issues associated with your use of the Adobe Systems converter. If you need technical support or have questions, please contact Adobe Systems directly.
 - **Microsoft Office (Word, PowerPoint)**
 - In Word, PowerPoint, and other Microsoft Office programs you will “Save as PDF.” Visit the Microsoft Office support page for more information about [“Save as PDF.”](#)
 - To save a Word or PowerPoint document as PDF:
 - Open your Word or PowerPoint document.
 - From the top menu select “File,” and select “Save As.”
 - In the dialog window, go to the drop-down menu for “Save as type,” and select “PDF.”
 - Click “Save.”
 - **Google Docs**
 - In Google Docs, you will “Download as” PDF. Visit the Google support page for more information on [“Download a file.”](#)
 - To download a Google Doc as a PDF:
 - Open your Google doc
 - From the top menu select “File,” and select “Download as,” and select “PDF Document (.pdf)”
 - **Pages**
 - In Pages, you will “Export to” PDF. Visit the Apple support page for more information or follow the steps below:
 - Open your Pages document.
 - From the top menu select “File,” and select “Export to,” and select “PDF.”
 - In the dialogue window select “Best,” image quality.
 - Choose a destination for the export and click “Export.”

Creating Video Files

- For the Computational Artifact and Individual Video submissions, you have the ability to submit audio or video files.
- These files must be *no larger than 30MB and are limited to 1 minute* in length.

- While you can use any method to produce the video, screen captures tools are known to generally create screen capture files of the appropriate sizes. An example of a web-based screen capture tool is:
 - Screencast-O-Matic (<http://www.screencast-o-matic.com/>)
- If you use other video tools, do not select HD resolution to help limit file sizes.
- Do not use YouTube to submit any video.
- ***Do not publicly post or share any portions of your performance tasks.***
